ENGLISH AI · THEORY LESSON

Technology, Devices & Troubleshooting

Vocabulary, useful phrases, grammar, writing and conversation practice

Level A2-B1 · 45-60 min · Lesson 12

LESSON GOAL

By the end of this lesson, you should be able to describe common device problems, follow simple troubleshooting steps, ask for technical help, and explain what you have already tried.

Learn the device and troubleshooting vocabulary first, then practise sequence instructions and “already / yet / still”. Finish with the Conversation Lab by solving a realistic internet or computer problem.

Communication goal

Technical support becomes much faster when you explain the symptom, when it started, what changed, and what you have already tried.

[START HERE](#)

Lesson map

A simple sequence: learn the key language, practise the structure, and then use it in a realistic conversation.

01

LEARN

Vocabulary + useful chunks

02

BUILD

Grammar + model dialogue

03

SPEAK

Writing + role-play

Warm-up

1. Which device do you use most every day?
2. What technology problem happens to you most often?
3. Do you usually fix problems yourself or contact support?
4. Which technical words do you already use in English?

Before you continue

Answer the four questions in English using short sentences. Do not worry about mistakes yet. The goal is to activate the topic before studying the new language.

VOCABULARY 01

Essential vocabulary

Study the meaning and then read each example aloud. Try to connect each word to a real situation from your own life.

WORD / PHRASE	MEANING	EXAMPLE
device	dispositivo	This device is connected to Wi-Fi.
screen	tela	The screen is frozen.
keyboard	teclado	My keyboard stopped responding.
charger	carregador	I forgot my charger.
battery	bateria	The battery drains very quickly.
storage	armazenamento	My phone is low on storage.
update	atualização	There is a new software update.
password	senha	I forgot my password.
account	conta	I cannot access my account.
Wi-Fi	Wi-Fi	The Wi-Fi keeps disconnecting.
connection	conexão	The connection is unstable.
router	roteador	Try restarting the router.
settings	configurações	Open the network settings.
backup	cópia de segurança	Make a backup before resetting the phone.
file	arquivo	The file will not open.
support	suporte	I contacted technical support.

VOCABULARY 02

Troubleshooting actions

These verbs form the core of many support conversations and step-by-step instructions.

EXPRESSION	MEANING	EXAMPLE / USE
restart the device	reiniciar o dispositivo	Restart the device and try again.
turn it off and on	desligar e ligar	Turn it off and on first.
plug in	conectar na tomada / cabo	Plug in the charger.
unplug	desconectar	Unplug the router for thirty seconds.
connect to Wi-Fi	conectar ao Wi-Fi	I cannot connect to Wi-Fi.
reset the password	redefinir a senha	I already reset the password.
install an update	instalar atualização	Have you installed the latest update?
clear storage	liberar armazenamento	I need to clear some storage.
back up files	fazer backup de arquivos	Back up your files first.
log in	entrar na conta	I cannot log in.
log out	sair da conta	Log out and sign in again.
factory reset	restauração de fábrica	A factory reset will erase your data.

Study tip

Learn complete expressions, not only isolated words. In conversation, retrieving a ready-made chunk is much faster than building every sentence from zero.

USEFUL PHRASES

What to say in real situations

These phrases are designed to be spoken. Read them aloud and imagine the exact situation where you would use each one.

SITUATION	PHRASE	USE / MEANING
Describe problem	My screen is frozen.	State symptom.
	The Wi-Fi keeps disconnecting.	Describe repeated problem.
	I cannot log in to my account.	Describe access problem.
What you tried	I have already restarted it.	Explain completed step.
	I have not installed the update yet.	Explain pending step.
	It is still not working.	Problem continues.
Ask for help	What should I try next?	Request next step.
	Could you walk me through it?	Ask for guided instructions.
	Will this delete my files?	Check risk.
Confirm	So I should restart the router first?	Repeat instruction.
	Do I need to back up my files?	Confirm preparation.
	How will I know if it worked?	Confirm expected result.

Make it yours

Choose three phrases from this page and rewrite them with details from your own life. Personal examples are easier to remember and use naturally.

GRAMMAR FOCUS

Already, yet, and still in troubleshooting

Use “already” for a completed action, “yet” for something expected but not completed, and “still” when a situation continues.

PATTERN	EXAMPLE	USE
already	I have already restarted the computer.	completed sooner / before now
yet	I have not updated the app yet.	not completed until now
yet?	Have you tried a different cable yet?	ask if completed
still	The screen is still frozen.	situation continues
still	I still cannot connect to Wi-Fi.	problem continues

Support formula

PROBLEM -> WHEN IT STARTED -> WHAT CHANGED -> WHAT YOU ALREADY TRIED. This gives support the information they need to choose the next step.

Mini practice

Complete: I have _____ restarted the router.

Complete: I have not updated the app _____.

Complete: The problem is _____ happening.

Write one sentence describing something you already tried.

MODEL DIALOGUE

Wi-Fi keeps disconnecting

The support agent first checks what has already been tried, then gives one new step at a time.

USER Hi. My Wi-Fi keeps disconnecting every few minutes.

SUPPORT When did the problem start?

USER This morning. It was working normally yesterday.

SUPPORT Have you restarted the router yet?

USER Yes, I have already restarted it twice.

SUPPORT Okay. Are all your devices losing connection or only one?

USER All of them. My phone and laptop both disconnect.

SUPPORT Please unplug the router, wait thirty seconds, and plug it back in.

USER I already did a quick restart. Is this different?

SUPPORT Yes. Leave it unplugged for the full thirty seconds.

USER Okay. If it still does not work, what should I do?

SUPPORT Then we will check the connection status and network settings together.

One step at a time

In support conversations, complete one instruction and report the result before moving to the next step.

WRITING PRACTICE 01

Build useful sentences

Translate the sentences into English using the vocabulary and structures from this lesson. More than one answer may be correct.

1. A tela está travada.
2. O Wi-Fi continua desconectando.
3. Eu não consigo entrar na minha conta.
4. Eu já reiniciei o computador.
5. Eu ainda não instalei a atualização.
6. Ainda não está funcionando.
7. Você pode me orientar passo a passo?
8. Isso vai apagar meus arquivos?
9. Desconecte o roteador por trinta segundos.
10. Faça backup dos seus arquivos primeiro.
11. O meu celular está com pouco armazenamento.
12. O que eu devo tentar agora?

WRITING PRACTICE 02

Write a technical support request

A good technical support message contains enough detail to reproduce or understand the problem without becoming a long story.

Task: Write 90-120 words to technical support about a computer, phone, app, or internet problem. Include the symptom, when it started, what changed, two things you have already tried, and the help you need next.

Try to include some of these:

- I am having a problem with...
- It started...
- Before that,...
- I have already...
- I have also tried...
- However, it is still...
- Could you tell me...?
- What should I try next?

Simple structure

SYMPTOM -> TIMING / CHANGE -> STEPS TRIED -> CURRENT RESULT -> REQUEST. Keep the sequence factual.

Self-check before you finish

- ☐ Did I explain the exact symptom?
- ☐ Did I say when it started?
- ☐ Did I mention what I already tried?
- ☐ Did I ask for a clear next step?

CONVERSATION PRACTICE

Role-plays for the AI coach

Open the Conversation Lab and complete each situation before asking the AI to correct you. Try to stay in English even when you need time to think.

Role-play 1 · Laptop problem

Your laptop is very slow and the screen freezes. Explain when it started and ask the AI, acting as support, what to check first.

Role-play 2 · Account access

You cannot log in to an app. You already reset the password, but the error continues. Work through the next steps with support.

Role-play 3 · Internet outage

All devices at home lost internet. Explain what you already tried and follow the AI through a short troubleshooting sequence.

Questions to practise

- When did the problem start?
- What exactly happens?
- Have you restarted it yet?
- What have you already tried?
- Is the problem happening on every device?
- Could you walk me through it?
- Will this delete my files?
- What should I try next?

REVIEW

Mini test

Complete this without looking back. The goal is to see what you can produce from memory, not only what you recognize on the page.

1. Translate: armazenamento = _____
2. Translate: roteador = _____
3. Translate: configurações = _____
4. Complete: I have _____ restarted it.
5. Complete: I have not tried that _____.
6. Complete: It is _____ not working.
7. Translate: “A tela está travada.”
8. Translate: “Eu não consigo entrar na minha conta.”
9. Ask what to try next.
10. Ask if a step will delete your files.
11. Tell someone to restart the device.
12. Tell someone to back up their files.
13. Explain the difference between already and yet.
14. Name four details to give technical support.
15. Write one sentence with “still”.

ANSWER KEY

Check and learn from your mistakes

Some answers can vary. The versions below are natural examples using the language taught in this lesson.

Grammar mini practice

- already
- yet
- still
- Answers vary.

Writing practice 01 - Suggested answers

1. The screen is frozen.
2. The Wi-Fi keeps disconnecting.
3. I cannot log in to my account.
4. I have already restarted the computer.
5. I have not installed the update yet.
6. It is still not working.
7. Could you walk me through it step by step?
8. Will this delete my files?
9. Unplug the router for thirty seconds.
10. Back up your files first.
11. My phone is low on storage.
12. What should I try next?

Review strategy

Mark the sentences that felt slow or uncertain. Say those sentences aloud three times, then create one new example with the same structure.

FINISH

Mini test answers + progress check

Use the score only as a guide. The real objective is to understand the topic and communicate without stopping every time you need a new sentence.

1. storage
2. router
3. settings
4. already
5. yet
6. still
7. The screen is frozen.
8. I cannot log in to my account.
9. What should I try next?
10. Will this delete my files?
- 11-12. Use imperatives.
13. already = completed; yet = expected but not completed / question
14. symptom, timing, change, steps tried
15. Answers vary.

READY FOR CONVERSATION?

If you can do these four things, move to the Conversation Lab.

- ✓ Describe common device and connection problems.
- ✓ Explain what you have already tried.
- ✓ Follow simple troubleshooting instructions.
- ✓ Write a clear technical support request.
